Upgrade macOS for Office 365 for Mac or Office 2019 for Mac new updates

Excel for Office 365 for Mac, Word for Office 365 for Mac, More...

As of the November 2019 update for Office 365 for Mac or Office 2019 for Mac (build 16.31), macOS 10.13.6 or later is required to receive updates to Word, Excel, PowerPoint, Outlook and OneNote. If you continue with an older version of macOS, your Office apps will still work but you will no longer receive any updates including security updates.

Office 365 Word El Capitan Does Not Prompt For Password

Jul 14, 2016 I have reset his password through 365 admin portal, and entered that in the outlook account settings.

Last Friday I upgraded to El Capitan doing a clean install of OS X and just carried over my user folder.. This is a disaster 1) It's a late 2013 MacBook Pro Retina, 15' which came with Mavericks installed and I upgraded to Yosemite.. I have since uninstalled office and done a reinstall on the clients Mac, also removed two keys from keychain: MicrosoftOffice152DataADAL.
